

HIGH TEMP ALLOY FABRICATIONS

**24/7 CUSTOMER SUPPORT
ON-SITE SERVICE**

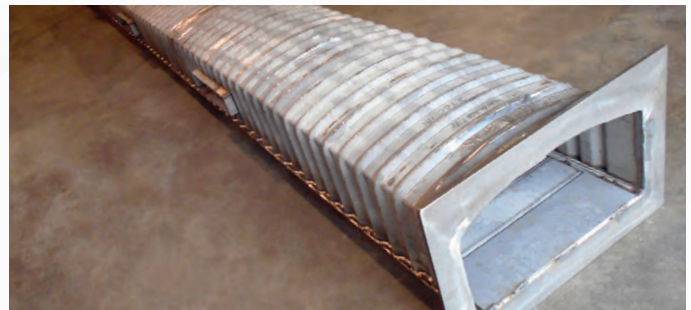

Gasbarre is a leading manufacturer of fabricated high temperature alloy and stainless steel products. With our complete line of metalworking equipment, full service machine shop and in-house engineering capabilities, Gasbarre Thermal Processing Systems provides a wide range of fabrication capabilities that can be customized to meet each customer's unique needs and applications. We also maintain a large inventory of steel on-hand to accommodate rush jobs.

Custom Cones

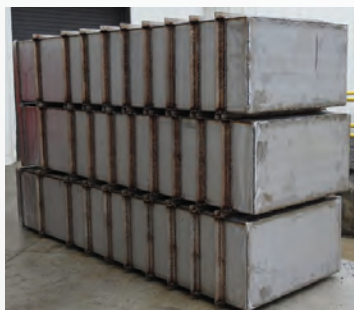

**High Temp 600 Stainless
Steel Fan Blade**

**Corrugated Muffle with Stainless Steel
Hearth Plates**

**High Temp Stainless Steel Fan
Shrouds**

Custom Saggars

Water-Jacketed Coolers

WHAT SETS GASBARRE THERMAL PROCESSING SYSTEMS APART?

- The largest line of **metalworking equipment** available to complete your job
- **Full service machine shops** with turn key machining capabilities so your fabrication stays in-house from start to finish
- **Large press brake and rollers** that allow for greater range of bending and rolling capabilities
- The choice to utilize our in-house **engineering capabilities** or supply your own fabrication prints
- **A large inventory of steel** on hand to complete rush jobs and breakdowns
- **Competitive Pricing** on your custom fabrication. Our savings through volume pricing on steel are passed down to you!
- **Large facilities** that provide plenty of room to house even the largest of fabrications

METAL CUTTING

- CNC Thermal Cutting
- Gas or Plasma Cutting
- Vertical Saws with Tilting Heads
- Power Shears up to 1/2" Thick x 12' Long

BENDING

- Press Brakes to 600 Tons
(Maximum 3/4" Thick x 16' Long Mild Steel
or 1" Thick x 10' Mild Steel)

ROLLING

- Rolls up to 1/2" x 10' Long
- (4) Roll Bending Machine with Digital Controls

ANGLE ROLLING

- Up to 3 x 3 x 3/8 Angle Iron

MACHINING

- Complete Machining Capabilities

WELDING

- 100 to 800 Amp Electric Welding
(Stick, TIG, MIG and Submergible Arc)

IRON WORKERS

- 30 Tons to 85 Tons

STEEL INVENTORY

- Mild Steel and Plate (20 Gauge to 6" Thick)
- Structural Shapes
- Stainless Steel Sheet and Plate
(304, 330 and 600 Alloy)

FACILITIES

- 50,000 sq. ft. Facility with 22' Ceiling Height
- Paint Booth (50'L x 14'W x 12'H)
- Overhead Crane Capacity to 10 Tons
(18' Under Hook)
