# WHY REBUILD?

*Sometimes a rebuild is the best solution*

## BENEFITS OF REBUILDING

- **Returns** machines to original or current specifications/standards
- **Reduces** downtime and increases productivity and operating efficiencies
- **Restores** machine health, structural integrity, and operating systems, extending the equipment's life, economic viability, and useful lifecycle
- Offers the **option** of capitalizing rebuild costs, eliminating or reducing the impact on maintenance and repair budgets

	REBUILD	REPLACE

<i>Lowest Price</i>	■	
<i>Elimination of Depreciation</i>	■	
<i>Life Expectancy</i>	□	■
<i>No Selling/Trading Issues</i>	■	
<i>Operation Spec Improvement</i>	□	■
<i>Turnaround</i>	■	
<i>Warranty</i>	■	■
<i>Latest Technology</i>	□	■

## REBUILD SERVICE LEVEL OPTIONS

### GASBARRE BASE

Critical centerline components (die set, & upper ram) rebuilt to improve tolerance and accuracy. Other customer requested repairs as well. Fastest and least expensive.

### GASBARRE SELECT

Includes Gasbarre Base PLUS all ejection components, crankshaft bearings, clutch rebuild, plate float cylinders and more. Improves press tolerances and part ejection while minimizing tool wear. Condensed scope and enhanced reuse of components.

### GASBARRE PRIME

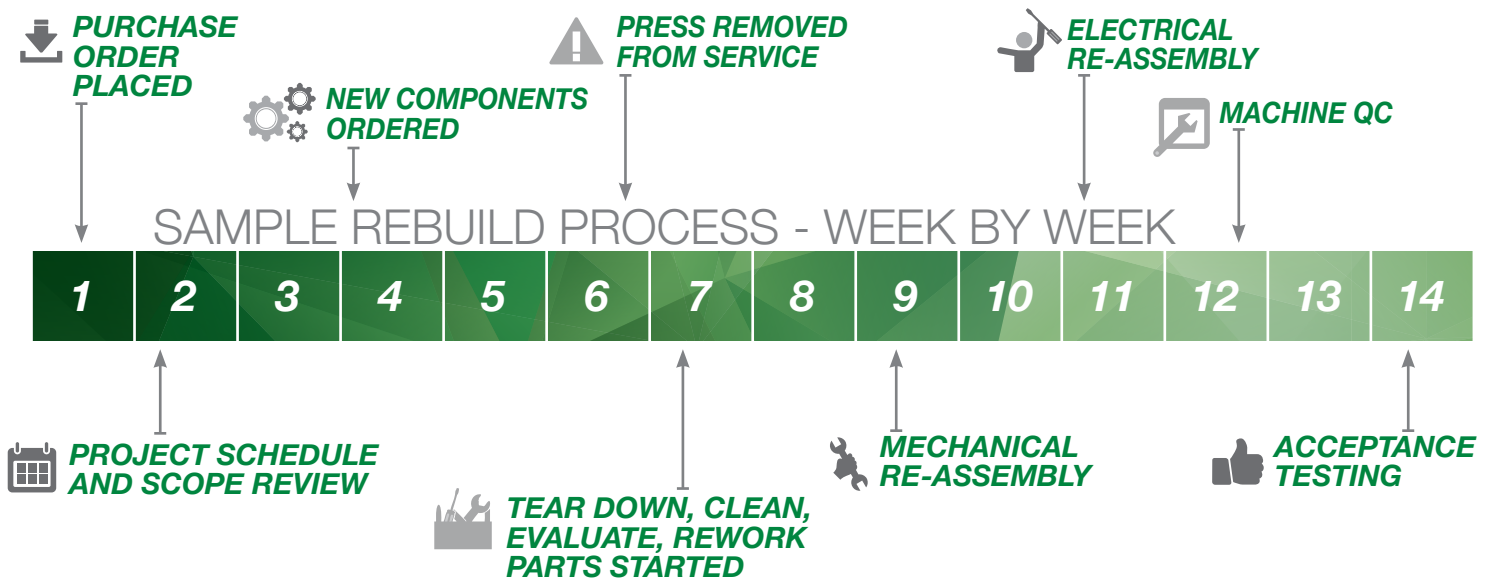

A like-new, full-warranty press with 40-60% savings compared to ordering new. Gasbarre Prime is a major overhaul that includes complete disassembly, evaluation, reconditioning, upgrades to latest standards, reassembly and performance evaluation. All mechanical, hydraulic, and electrical components are inspected and tested. A complete list of reworked/new components is provided as part of the initial quote.

# GASBARRE CERTIFIED REBUILD **PROCESS**

Our rebuild process begins with a pre-rebuild condition audit, including a review of maintenance records, structure assessment, and evaluation of component health. We then supply a list of recommended productivity and reliability upgrades, as well as mechanical upgrades.

# GASBARRE CERTIFIED REBUILD **ADVANTAGE**

## *A Gasbarre Certified Rebuild can breathe new life into an old press*

When buying a new machine isn't an option, Gasbarre can bring your machine to like-new performance for a fraction of the price.

- **Increase Press Production**
- **Improve Parts Tolerances**
- **Improve Fill Consistency**
- **Decrease Tool Breakage**
- **Enhance/Update Programming & Functionality**
- **Update Safety to Protect Your Business**

**STATE-OF-THE-ART FACILITY**  
**DEEP & BROAD EXPERIENCE**  
**FULL ONE YEAR WARRANTY**

## MAXIMIZE YOUR INVESTMENT

The value of the Gasbarre Certified Rebuild Programs extends beyond your equipment with warranties and coverage from Gasbarre — including the support of the largest press service provider in North America.

# COMMITTED TO QUALITY

Gasbarre uses ISO 9001:2015 Standard to continuously improve the effectiveness of the Quality Management System.

## WORLDWIDE SUPPORT

For over 100 years, our company has been providing equipment and support for our clients in many different industries. Our customer service teams and worldwide network of representatives offer after-sale support of equipment, training, and start-up supervision on all our equipment. Replacement and spare parts are available with minimal downtime. Gasbarre provides rebuild service and retrofits for presses, furnaces, and other related equipment.
