

## INDUSTRY LEADING TIP UP FURNACES

GLOBAL SUPPORT TEAM  
ON-SITE SERVICE

Gasbarre stands behind our customer commitment in the design, manufacturing and servicing of industrial heat treating equipment encompassing a wide range of thermal and material processing requirements. Each application challenge focuses on the customer's needs through advanced engineering, technology and commercial-based solutions formulated to drive customer success.

### STANDARD SIZES

MAX LOAD (LB.)	LOAD SIZE (FT.)		
	Width	Length	Height
15,000	16	12	6
30,000	36	12	6
60,000	36	12	6

*Custom engineered sizes available upon request*

### FEATURES

- Heating:** Gas or Electric
- Temperature Range:** 400°F - 2,300°F
- Insulation:** Fiber or Brick
- Load Capacity:** 1,500 lb - 150,000 lb  
Meets AMS 2750 Requirements

### EQUIPMENT CUSTOMIZATION

- PLC Control
- Recirculating Fans
- Computer Management System
- Variable Load Sizes and Capacities
- Atmosphere (Nitrogen, Methanol, Endo Gas, Natural Gas, Ammonia or Air)
