Gasbarre Announces Promotion

Hall to Manage Powder Compaction Solutions Aftermarket Services

Tuesday, August 6, 2019

DuBOIS, PA – Gasbarre has announced the promotion of **Joseph D. Hall** to Aftermarket Services Manager for Powder Compaction Solutions. The move, one of several recent, is aimed to enhance the company's aftermarket service and provide customers with unmatched technical expertise.

Mr. Hall has been with Gasbarre for more than nine years in various roles including Logistics and Press Assembly. He has spent the last five years servicing Gasbarre aftermarket customers.

According to **Heath Jenkins**, President, Press & Automation, "Joe has proven himself time and again in a variety of demanding roles of increasing responsibility. Dedicated, smart, and driven to 100% customer satisfaction, employees like Joe are singularly important to our customers' success. His promotion is well-deserved and we look forward to what the future holds for Joe and for Gasbarre."

*Joe Hall can be reached by telephone at **814.372-5176**, or via email at jhall@gasbarre.com.*

About Gasbarre Powder Compaction Solutions

Gasbarre Powder Compaction Solutions is the industry leader for all things related to powder compaction presses, automation, precision tooling and ancillary powder compaction products. Gasbarre's diverse press offering includes uniaxial Mechanical, Hydraulic, Electric, and Cold Isostatic Presses. Available in capacities from 2 to 1,000 tons, for simple-to-complex multi-level components, few other companies in the world offer the selection of presses and the full range of accessory products that Gasbarre does.
